Hike and Bike Trail

Connecting Our Communities

Our Vision:

The PORTAGE Hike and Bike Trail will be a dedicated pedestrian/bicycle pathway connecting Portage County communities, while serving as a key east-west link between major hike and bike trails in Summit and Trumbull counties. The PORTAGE will provide our citizens with safe, scenic recreation and uniquecommuting opportunities while stimulating local business and tourism.

Our Communities:

The PORTAGE showcases a diversity of community destinations such as the Kent State campus, parks, schools and stadiums, historic canal remnants, Native American trails, the Cuyahoga National Heritage River, theatres, downtown businesses and spectacular natural areas. The PORTAGE connects our communities and improves our quality of life by:

- Promoting family recreation
- Strengthening our economy
- Protecting our environment
- Encouraging healthy activity

Our Trail:

The PORTAGE Hike and Bike Trail will initially connect Kent, Ravenna, Kent State University, Brady Lake, Franklin and Ravenna townships with approximately 13 miles of asphalt and crushed limestone trail. The PORTAGE will be comprised of a variety of trail segments offering something for all ages, abilities and interests.

Our Future:

With community support and grant funding, The PORTAGE is progressing with trail construction between Ravenna and Franklin Township, and a bridge over SR 261. But much is left to do. Together we can make this vision a reality–please contact one of our partners for more information.

The PORTAGE connects Kent, Ravenna, Kent State University, Brady Lake and Franklin and Ravenna Townships.
